Reading this schedule

- This schedule covers the two new school buildings and both floors of each building.
- Lower school means K4 through Grade 5; Grade 5 is on Building 1’s second floor. Middle school means Grades 6-8.
- Room counts are listed floor-spaces: each stair enclosure and lift / shaft footprint is counted on each floor. Corridors are not counted as rooms.
- Gross floor area follows each exterior building outline. Listed room area follows each interior room outline; the remainder includes walls, circulation and other unlisted areas.
- Dedicated storage is listed separately and counted once. Specialist and spare category totals include their dedicated stores; classroom counts exclude stores.
- Dimensions run east-west × north-south in campus orientation. Overall dimensions are bounding sizes, so they need not multiply to the area of an irregular room.
- Toilets, urinals and sinks are counted from the fixtures drawn in the plan; stall partitions are not additional toilets.
- Displayed areas are rounded; totals are calculated from room geometry before rounding.

Office and staff spaces

The reported current office plus breakroom / staff bathroom totals 1,260 SF. The proposed components below include separate reception, head-office and lounge spaces across two buildings. Their scope differs, so no like-for-like percentage increase is stated.
